## Personal profile

A Web Development graduated student with passion and interest in modern web technologies. With 2 years of hands-on experience efficiently coding websites and web applications using modern technologies I am ready to enhance the working environment. I am very effective working in a team and working individually. My motivation comes from constantly wanting to improve myself as well as my work, to achieve a solid career.

## Work experience

07 January 2019 – 05 April 2019

### **Intern: Front-end developer at Set Snail**

The daily tasks were focus on front-end development. Understanding the VueJS framework architecture by developing different components. Beside VueJS, I worked with FlexBox and SASS to create responsive UI. Through the internship period I had the opportunity to work with two different headless CMS: Storyblok and Cockpit.

01 February 2017 – 30 April 2017

### **Intern: Front-end developer for Drupal 7 ecommerce website at Scandesign Media A/S, design and IT company**

The internship was based mostly on understating the functionality of Drupal 7. The main tasks were to support the other senior developers by testing and fixing the responsiveness issues of the product. I worked on developing responsive layouts for web templates with Bootstrap and CSS.
